

- No maintenance
- Small machine, great performance
- Easy cleaning

REAL MIX

230 V

Indications of use

Continuous and automatic mixer for premixed mortars and self-leveling screeds

Art. 2870

REAL MIX is a continuous mixer for bagged materials as gypsum or cement-based plaster, masonry mortar, premixed structural mortars, adhesives, smoothing compounds, plasters and all premixed water-free products.

The fundamental characteristic of this machine is given by the reduced dimensions of the mixing chamber, this facilitates cleaning, guarantees less wear and also favours a lower absorption compared to the other mixers on the market.

Technical Features

Voltage: 230 V

*Flow rate: 1250 l / h

Absorption: 1.8 kW

SF worm gear motor: 198 rpm - 1.8 kW - 12.5 A

Water working pressure: min. 1 atm

Max absorbed power: 2.3 kW - 11.5 A

Sound power: 84 dB (A)

Total weight: 80 kg

Length x Width x Height: 122 x 62 x 94 cm

Standard Equipment

20 m water hose

20 m air hose

Total weight: 10 kg

Transport Size

Length x Width x Height: 122 x 80 x 108 cm

Total weight: 115 kg
